Dear Bill:

On the 22nd of January, the Subcommittee on International Trade of the main Committee is going to consider what recommendation, if any, it might make with respect to minerals policy involving southern Africa. A copy of the agenda for the Committee is attached. In addition, I have attached a memorandum which I addressed to the Chairman of the Subcommittee, Andy Andrews of Allegheny International, with respect to Judge Clark's desire in the premises.

You will note in the memorandum to the Chairman of the Subcommittee that I offered, through you, to bring to our meeting in Pittsburgh a man very deep in the bowels of your organization, one Fred Wettering. When I came back from South Africa, I reported my findings to Judge Clark at NSC and Fred, who was then his African specialist. He is now your African specialist.

I have a lot of respect for Fred and feel that the members of Andy Andrews' Subcommittee would benefit a great deal from a briefing by him before they make their decision with respect to what they are going to recommend to Judge Clark and the President. I am hopeful that you will make him available for such a briefing.

All of my Committee members have Top Secret clearance but this briefing would be on a non-attributable basis so that anything Fred said to us (and I will be there) would not be made public in any subsequent communication.

Would you please have Fred call me [(804) 296-4362] or Dr. Wayne Marchant, the Executive Director of our Committee, at 343-5791, if you can, as I hope you will make him available.

Sincerely,

Bill

William C. Mott, RAdm. (Ret.)
Chairman, National Strategic
Materials and Minerals Program
Advisory Committee
